SUMMARY

AI & Computer Engineering student at Youngsan University with practical experience in data annotation and customer service. Previously worked as a Data Specialist and IT support technician in Nepal, gaining exposure to technical problem-solving and client communication. Currently exploring basic web development (HTML, CSS, JavaScript) and experimenting with AI-assisted coding tools as part of personal learning projects. Adaptable to new environments, with proven empathy and communication skills, and multilingual ability in Nepali, Hindi, English, and basic Korean.

WORK EXPERIENCE

Busan, KR
